BRIEF ABSTRACT OF LETTER.

Forwards the resolution of the Retrenchment Committee suggesting that the post of Deputy Sanitary Commissioners, as a separate appointment, may be finally abolished.

NOTES AND ORDERS.

After the transfer of Mr. P. Galpin, as District Health Officer, Shimoga District, i.e. from 26th April 1911, the post of Deputy Sanitary Commissioner was vacant. In November 1912 Dr. Srinivasa Rao [whose designation has been changed into 'The Director of Public Health'] was appointed to officiate in the post and by Sanitary Commr (vide Govt. No. 3427 dated 13.11.12). Pm 99-11-4

San.y & Prisons departments will have plenty of training work to do in connection with these. It would be of advantage to them if an Assistant Director of the Health Service were to undertake the work of San.y inspections to a considerable extent. The very fact that the department is supposed to be top heavy shows that there is great need & scope for organising the lower ranks of the San.y Service on a proper footing. These are some of the advantages of having a Deputy to the San.y Com.r if it can be done without extra cost as at present, there does not seem to be any serious objection in continuing the appointment as at present.

7 This question may be informally discussed at a meeting of Council. I think the best and cheapest way of doing work is by the appointment of a Sanitary Board with an energetic Chairman. The proposal and the general details may be informally discussed with the Councillors.

Abolition of the post of Deputy Sanitary Commissioner as a separate appointment.
Res.II.I.8 9th meeting.

Brief history of the appointment.

The post was created in 1907 when the Public Health Department was constituted. -vide G.O.No.1378--92-San.93-'06-8 dated the 10th August 1907, to assist the Senior Surgeon with the Government in sanitary matters and supervise vaccination. The pay of the Deputy Sanitary Commissioner was fixed at Rs 500-50/2-750.

With the transfer of Mr.Palpu as District Sanitary Officer, the post of Deputy Sanitary Commissioner has been tentatively abolished.

The Committee's recommendation.

Since the creation of the Public Health Department it is generally believed that the department is top-heavy and that in the interests of general sanitation and public economy as well, more officers in the lower rungs of the ladder are required

IV.

Dr Srinivasa Rao a. another gazetted is Director Public Health & Sanitary and ex-officio Dy Sanitary Commissioner.

IK 15-11-12

The supervision of the work of vaccination having now been entrusted to Dr.Srinivasa Rao, the Committee are of opinion that there is no longer any necessity for the appointment of Deputy Sanitary Commissioner and that the Senior Surgeon and Sanitary Commissioner may well control both the medical and Sanitary departments without the help of a deputy and that the post of Deputy Sanitary Commissioner as a separate appointment be finally abolished.
